**04-MDC6SHR/VA COLOUR 600TVL DOME + 700TVL NIGHT MONO MODE  
£108.74**

The MDC6SHR/VA Dome embodies the latest Winner 5 technology for Super Low Light with excellent noise control for clear pictures. This Dome allows the user to choose between an Auto setting that will allow the IR Cut Filter to move and give Enhanced 700TVL Mono at night. 600TVL Colour only may also be set for those installations where a top clarity and Low Noise Colour image with superb low light sensitivity is needed. Numerous OSD Menu settings are available including Super 2D & 3D DNR, Digital WDR, Privacy Zones, Motion Detection, Mirror Image and DSS Control for Low Light. The Sony Super HAD II CCD with an Aspheric 2.8~11mm lens is used to further enhance the all round performance. This Dome can be ceiling or Wall mounted with its Multi Axis module and is perfect where a Superior Grade Dome is needed to produce a vibrant clear true colour image. Input Voltage options of standard 12V DC or Dual 12V DC and 24V AC. [\[Product Details...\]](#)
